When Nick was born his father was so shocked that he left the hospital room to vomit. His distraught mother couldn't bring herself to hold him until he was four months old.

His disability came without any medical explanation - a rare occurrence called Phocomelia - and Nick and his parents spent many years asking why this cruel trick would happen to them. 'My mother was a nurse and she did everything right during pregnancy but she still blamed herself,' he said.

'It was so hard for them but right from the start they did their best to make me independent.'

'My dad put me in the water at 18 months and gave the courage to learn how to swim.'

'I also got really into football and skateboarding. I totally love the English Premier League.'
